About Me

I have been a florist since 2017 and I possess a broad range of technical skills and design knowledge. My experience spans both retail and wholesale floristry, where I created high quality custom arrangements for clients and gained hands-on knowledge of flower sourcing, large-volume production, and growing practices. I also have some experience in wedding and event styling, with a strong eye for detail and creativity in bringing client visions to life.

Work Experience

Floral designer

Poppies Floral Art | Victoria, Canada

02/2023 - 05/2025

- Mastered advanced design techniques and artistic styles such as European/Bespoke garden style and contemporary arrangements.
- Designed high-end arrangements for retail clients and special events, including during major floral holidays.
- Assisted with consultations, planning, and creation of wedding designs.

Floral designer & horticulture assistant

Eurosa Farms | Saanich, Canada

05/2021 - 09/2021

- Assisted in maintenance and harvesting of roses and alstroemeria at Canada's largest rose grower.
- Learned to identify and manage plant health issues, including pruning, pest management, and post-harvest care.
- Contributed to wholesale production of bouquets and created small arrangements for local clients.

Floral designer

Mt Newton Floral | Saanich, Canada

01/2021 - 05/2021

- Produced large volumes of bouquets for wholesale distribution while maintaining quality and longevity.
- Created bouquet recipes and assisted colleagues in perfecting their designs.
- Gained experience maintaining both imported and locally grown flowers.

Floral assistant

Brown's the Florist | Victoria, Canada

11/2017 - 01/2021

- Assisted in maintenance and harvesting of roses and alstroemeria at Canada's largest rose grower.
- Learned to identify and manage plant health issues, including pruning, pest management, and post-harvest care.
- Contributed to wholesale production of bouquets and created small arrangements for local clients.

Skills

- Botanical knowledge, flower preservation & handling, seasonal awareness
- Physical design mechanics (e.g., wire, tape, glue)
- Classic florals (hand-tied bouquets & foam/vase arrangements)
- Wedding & event florals (bridal bouquets, boutonnieres/corsages, aisle markers & centerpieces)
- Color theory and knowledge of several different design styles (English & European, Bespoke garden style, Oriental, etc.)
- Professionalism, customer consultation & event coordination
